### **Whistleblower Ties FBI Indictment of Harvard Group to COVID Conspirators Hiding “Gain-of-Function” Lab Origin for Pfizer/Moderna Vaccine Enterprise**

Fort Myers, FL—A renowned drug-industry whistleblower filed a “Motion for Judicial Notice” in federal court today evidencing a COVID “enterprise” committing unfair and deceptive trade based on the FBI’s criminal indictment of Harvard nano-biotechnology expert, Dr. Charles Lieber, whose work with MIT scientists, government officials, and federal agencies links to the recently released e-mails of Dr. Anthony Fauci. Together, they elucidate the “gain-of-function” lab origin of COVID-19, its financiers, and emergence from AIDS vaccine research.

The whistleblower is Dr. Leonard G. Horowitz, a Harvard-trained author of the best-selling longest-enduring book in this field—[\*Emerging Viruses: AIDS & Ebola—Nature, Accident or Intentional?\*](#) The award-winning scholar and medical-legal expert recognized the need for alternatives to vaccines for immune compromised people when he brought NASA science to market by branding an anti-viral called “[OxySilver™ with 528](#).” His subsequent censorship and disparagement by Pfizer and Moderna’s media cohorts gave the doctor “cause” and “standing” to sue for unfair and deceptive trade under Florida’s Whistleblower Act.

“What I filed today was historic,” Dr. Horowitz explained. “Federal officials had a ‘meeting of the minds’ to conceal and lie about four ‘tell-tale’ gene sequences from the AIDS virus, HIV-1, spliced into the SARS/coronavirus to increase transmissibility and pathogenicity. Instead of honestly and openly debating this evidence, the wrongdoers smeared and discredited the highly reputable group of researchers from India that bravely published their findings.”

Panicked by the “Indian paper,” Francis Collins—Dr. Fauci’s boss—and Pfizer’s advocate, Jeremy “James” Farrar, urgently organized a Teleconference immediately after the distressing science was published. The Fauci e-mails, that were released under a FOIA request by [BuzzFeed News](#), evidences the ‘coordinated’ cover-up—a crime under federal law.
